Art. (50 mm) 02040161 – (60 mm) 020401616

Rev.01 of: 12/08/2021

Supply and installation of Riwega TAPE GREEN acrylic adhesive tape, available in two sizes (50 and 60 mm), consisting of a flexible PE film, reinforced with PET/PA mesh, coated with pure polyacrylate adhesive for sealing to water, air, wind, steam and noise of the following points:

- membrane overlaps and/or USB Riwega roof and/or wall screens;
- joints between the Riwega membranes or USB screens and the surface of fireplaces, windows, vents or other break-points;
- joints of panel walls or OSB-type panels in the construction of wooden houses.

Laying must be completed with strong pressure using a special roll to ensure that 100% of the adhesive base adheres perfectly to the surface to be sealed.

Supplier: Riwega Srl, via Isola di Sopra 28, 39044 Egna (BZ) - I
