

THF Welding Liquid

Solvent
Riwega | eternitycomfort

Technical data sheet
of: 03/09/2015
Art. 02010352
Rev.04 of: 19/08/2021

Properties	
Material	Tetrahydrofuran (THF)
Package	Can with plastic cap
Contents	1 liter
Appearance	Transparent clear liquid
Boiling point	65°C
Applicator	PE bottle with brush (art. PLA 13601)
Application Temperature	Optimal: +18°C / +20°C (Minimum \geq +10°C)
Density at 20°C	0,88-0,89 g/ccm
Water Content	max. 300 mg/kg
BHT Stabilizer	min. 250 ppm
Purity	> 99,5%
Colour Number (Hazen)	max.10
Consumption	Approx.10 ml / linear meter (1 can of 1 liter = approx.100 linear meters)
Storage	Dry, in the original package, at +5°C / +25°C, max.12 months
